

Job openings at SIAT

The Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences

The Shenzhen Institutes of Advanced Technology (SIAT), Chinese Academy of Sciences (CAS), was jointly established by CAS, the Chinese University of Hong Kong and the Shenzhen Municipal Government in 2006. SIAT has earned an outstanding reputation for translating basic research into industrial applications, thanks to its interdisciplinary teams of scientists and engineers. At the interface between biological technologies and information technologies, SIAT is well positioned for innovation in the twenty-first century.

SIAT is hiring for the following positions:

- Researchers for the National Thousand Talents Program
- Researchers for the CAS Hundred Talents Program
- Distinguished research fellows
- Professors, associate professors, and assistant professors

Research fields include:

- Advanced biomedical imaging and therapeutics technologies
- Biomedical devices and medical robotics
- Neural engineering and rehabilitation
- Biomaterials and tissue engineering
- Biomedical informatics and genome sequencing
- Micro- nano- and bio-engineering
- Nanomedicine, antibodies and immunology
- Robotics and intelligent systems
- High-performance and cloud computing
- Information and communications technologies
- Data mining
- Precision engineering
- Water-treatment technologies
- Neurobiological mechanisms of brain disorders

Interested candidates should contact:

Rui Wang

Vice director of the Department of Human Resources and Education
