

The Institute of Technological Sciences, Wuhan University

SEEKING FACULTY MEMBERS AND POSTDOCS

Located in Wuhan, the largest city in central China, and an educational hub with 1.3 million students, Wuhan University (WHU) has a 124-year history and is now among the top seven universities directly under the Chinese Ministry of Education. Dedicated to enhancing WHU's engineering disciplines, the Institute of Technological Sciences (ITS) was established in April 2017. It strives to develop innovative technologies, and to achieve this, seeks high-level experts and young talent.

ITS now invites applications for faculty positions (rank open) in technological sciences. Areas of research include, but are not limited to, advanced manufacturing, alternative energy sources, advanced materials and aerospace engineering. Faculty will have the unique opportunity to lead and implement a cross-disciplinary curriculum on integrated technological sciences and engineering, and to conduct research in related fields.

WE REQUIRE:

- Ph.D. in a relevant area from a university ranked among the global top 200
- Potential for obtaining titles from the '1000 Young Talents Plan' or '1000 Talents Plan'
- Experience in cross-disciplinary teaching or research preferred
- Strong commitment to undergraduate and graduate teaching
- Track records of research are highly valued

WE OFFER:

- First-class faculty members
- Strong financial support
- Cross-disciplinary engineering research
- High level Talent Zone
- Platforms for sharing research resources
- Platforms for international academic exchange

Based on the candidate's academic level, we will provide a competitive annual salary, research start-up funds and a one-time housing subsidy. Successful applicants can also serve as dual appointment faculty at both ITS and relevant colleges or schools.

TO APPLY:

Applicants should provide a CV, a research statement and a teaching statement, as well as contact information for three references. All materials should be submitted to Ms. Yang at hannahyang766@163.com or Ms. Peng at pengqian41_lia@163.com. We will accept applications until the positions are filled.

We also invite and encourage letters of nomination for potential candidates. Nominations and questions about the positions may be sent to the secretaries with ITS Application in the email subject line.

We also have postdoctoral and graduate researcher positions available. For details, please scan the QR code or contact us.
